PROFESSIONAL PROFILE

Visionary and meticulous Principal Architectural Director with over nine years of advanced expertise managing high-end residential upgrades, commercial master-planning, and delicate heritage restoration frameworks. Recognized for an architectural philosophy that seamlessly binds structural layout discipline with custom contemporary scale. Adept at navigating complex municipal building codes, zoning bylaws, and organizing elite consultant teams to transition premier custom concepts into award-winning reality.

PROFESSIONAL EXPERIENCE

Principal Director

2021 — Present

ARCHDALEZ Architect — Saskatoon, SK

Founded and direct an elite boutique practice focusing on high-fidelity custom residential architectures and historical restoration projects.

- Direct comprehensive project lifecycles from schematic programming and zoning applications through to construction contract administration for multi-million dollar portfolios.
- Coordinate cross-functional consultant arrays including structural engineering networks, interior ateliers, and custom landscape visualists to uphold a unified aesthetic signature.
- Pioneered solid wall clearing frameworks and standardized high-fidelity opaque envelope systems to resolve fixed spatial layout overlaps across complex multi-tiered structures.

Senior Architectural Designer

2017 — 2021

Modern Edge Structural Partners — Calgary, AB

Supervised complex architectural productions and technical construction detailing.

- Managed advanced 3D Building Information Modeling (BIM) workflows for high-end single-family residential compounds and urban multi-family fill-ins.
- Cross-examined regional zoning regulations and structural code parameters, cutting municipal development approval turnaround timelines by 25%.
- Oversaw schematic coordination for large custom structural elements, specifying timber joineries and glass configurations for premium contextual estates.

SELECTED PROJECT PORTFOLIO

Kensington Townhouse

Super-prime Residential Refurbishment — London Context

Oversaw internal layout transformations and historical masonry stabilization to safely mesh high-efficiency internal mechanics behind a restricted historic facade.

Danes Hollow

Contemporary Arts & Crafts Estate — Coastal Concept

Oceanic House

Grade II Listed Restoration — Saskatoon Studio Core

Successfully re-engineered foundational load distributions to facilitate double basement excavation while safeguarding the architectural integrity of a character property.

Saskatchewan Drive Villa

Luxury Net-Zero Prairie Estate — Saskatoon, SK

Designed a 12,000 sq ft custom property optimizing glass exposures, utilizing structural bronze trims and handcrafted timber frame profiles to withstand marine conditions.

Developed an innovative, triple-glazed timber residence featuring integrated geothermal systems and minimalist spatial geometries floating cleanly above regional topographies.

EDUCATION

Master of Architecture (M.Arch)

2015 — 2017

University of British Columbia — Vancouver, BC

Graduated with Honors. Awarded Design Thesis Prize for research in timber-frame structural adaptations.

Bachelor of Environmental Design (B.Env.D)

2011 — 2015

University of Manitoba — Winnipeg, MB

Recipient of Faculty Presentation Medal for regional conservation layout strategies and material analytics.

CORE COMPETENCIES & AFFILIATIONS

Professional Affiliations: Active Member, Royal Architectural Institute of Canada (RAIC); SAA (Saskatchewan Association of Architects) Eligible.

Technical Proficiencies: Autodesk Revit (Advanced BIM), AutoCAD, Rhino 3D, V-Ray Rendering, Adobe Creative Suite, SketchUp Pro, MS Project.

Design Expertise: Schematic Design, Construction Documentation (CD), Heritage Building Conservation, High-End Detailing, Project Management, Localized Zoning Bylaws & Building Codes.
